### PROFESSIONAL SUMMARY

Full-stack developer with hands-on experience building AI-powered platforms, SaaS products, and marketplace applications from scratch. Proficient in Next.js, React, TypeScript, Supabase, and the Anthropic Claude API. Has shipped 30+ AI tools with real-time streaming, designed role-based systems for multi-user platforms, and led front-end architecture across multiple concurrent contracts. Strong eye for UI/UX with a focus on clean, functional design.

### PROFESSIONAL EXPERIENCE

- **Full-Stack Developer** 📅 Apr 2026 - Present  
*Light Logic Pte Ltd • Singapore (Remote)*
  - Contracted as full-stack developer for LumaLens, an AI-powered lighting design platform
  - Building full-stack web applications using Next.js, React, Supabase, and Node.js
  - Integrating Claude AI vision API for structured JSON output with Zod schema validation
  - Responsible for UI/UX design, deployment, third-party API integrations, and technical documentation
- **Full-Stack Developer** 📅 Apr 2026 - Present  
*Lesson Lift • London, UK (Remote)*
  - Built 30+ streaming AI tools end-to-end for UK educators using Next.js and Anthropic Claude API
  - Implemented real-time markdown streaming with custom renderer and Tiptap rich text editor integration
  - Architected shared prompt system combining per-tool expert personas with global output rules across all API routes
  - Built PDF and DOCX export pipeline with custom markdown-to-HTML renderer
- **Full-Stack Developer** 📅 Mar 2026 - Present  
*WorkWhale • workwhale.ph • London, UK (Remote)*
  - Contracted to build a full-stack job marketplace platform from scratch, similar in scope to onlinejobs.ph
  - Designed and developed the entire platform using Next.js and Supabase with only a subscription tier document as reference
  - Implemented separate employer and job seeker roles with distinct dashboards and permission systems
  - Built a subscription tier system with role-based feature access and billing logic
  - Integrated multiple AI features including resume parsing, profile-to-job matching, and AI-assisted job listing creation
- **Full-Stack Developer** 📅 Jan 2025 - Apr 2026  
*FutureThink Hub (Non-Profit) • Baltimore, Maryland*
  - Lead full-stack developer for FutureThink Edge educational platform
  - Contributed to conceiving and developing the platform's core features and user experience
  - Built the FutureThink Hub website from the ground up

- Developed multiple landing pages for charity campaigns and fundraising initiatives
- Implemented responsive designs and interactive features using React and Next.js
- Collaborated with nonprofit stakeholders to deliver impactful digital solutions

- **Digital Operations Manager**

📅 Jan 2025 - Apr 2026

*La Chow • Baltimore, Maryland*

- Manage administrative tasks including GoHighLevel platform utilization with all features
- Handle contract sending and event booking coordination
- Create and maintain company websites
- Manage Google Ads campaigns and Google Analytics reporting
- Lead a small team of virtual assistants
- Build and expand team through job postings and candidate interviews

- **Customer Service Representative**

📅 Feb - Aug 2022

*Sound Connection • Cebu City, Philippines*

- Assisted customers with inquiries, troubleshooting, and product information via multiple channels
- Resolved issues efficiently, ensuring positive customer experience
- Maintained accurate records of customer interactions and transactions
