Staff Registered Nurse

University of Cebu Medical Center

- Provided comprehensive nursing care to approximately 10 or more patients daily in Medical-Surgical, OB, and Pediatric wards.
- Administered medications through oral, intravenous (IV), and intramuscular routes while monitoring patient responses and reporting adverse reactions.
- Performed nursing procedures including wound dressing, specimen collection, vital signs monitoring, and bedside assistance during medical procedures.
- Assessed patients' physical, psychological, physiological, and cognitive conditions to support accurate diagnosis and treatment planning.
- Maintained accurate and updated patient documentation, including medication records, assessments, and treatment progress.
- Monitored and reported changes in patient condition, behavior, and physical status to attending physicians and healthcare teams.
- Ensured compliance with infection control standards and patient safety protocols.
- Assisted in pre-operative and post-operative patient care, including monitoring vital signs and supervising dietary intake.
- Prioritized nursing assignments effectively to deliver safe, efficient, and patient-centered care.
- Served as a preceptor for student nurses and newly hired staff by providing training, mentorship, and orientation on hospital policies and nursing procedures.
- Collaborated with multidisciplinary healthcare teams to achieve optimal patient outcomes.
